

JAYANTAN AD

Frontend Developer · Java Backend Engineer · DSA Enthusiast

adjayant2007@gmail.com github.com/ADjayantan [linkedin.com/in/ad-jayant-76686626](https://www.linkedin.com/in/ad-jayant-76686626) codepen.io/adjayant adjayant.github.io/portfolio-new-main

SUMMARY

Computer Science student at VSB College of Engineering with hands-on experience in React, TypeScript, and Firebase. Builds production-quality frontend systems with clean architecture, live API integrations, and accessibility-focused UIs. Consistent DSA practitioner with 144 problems solved on LeetCode. Actively seeking internship and entry-level software engineering roles.

EDUCATION

B.E. Computer Science and Engineering

Sept 2024 – May 2028

VSB College of Engineering Technical Campus, Coimbatore

TECHNICAL SKILLS

Languages: JavaScript (ES2022+) · TypeScript · Java · Python · HTML5 / CSS3 · SQL

Frontend: React · Tailwind CSS · Framer Motion · Vite · Responsive Design · Web Speech API · Canvas API

Backend & Data: Firebase (Firestore, Auth) · REST APIs · Node.js · Express · MongoDB

AI & Tooling: Google AI Studio · Gemini API · Prompt Engineering · Git & GitHub · VS Code

CS Fundamentals: Data Structures & Algorithms · OOP · DBMS · OS · SOLID Principles

PROJECTS

Developer Portfolio — Personal Website

React · TypeScript · Tailwind CSS · Framer Motion · Vite

adjayant.github.io/portfolio-new-main

- Built a fully responsive portfolio with dark/light theme toggle, animated terminal hero, and section reveals using Framer Motion
- Integrated live GitHub API to fetch and display repositories; LeetCode stats section sourced from real profile data (144 problems, 97-day streak)
- Clean data-layer architecture — all content in /data, components purely presentational; zero fabricated stats

MedPlus Pharmacy — Full Stack E-Commerce

React · Node.js · Express · MongoDB

adjayant.github.io/medplus

- Built a full-stack pharmacy e-commerce platform with product catalogue, cart, and order management
- Integrated Google Gemini AI chatbot for real-time medical queries and product recommendations

AI Web App Builder

Google AI Studio · Gemini API · JavaScript · Prompt Engineering

- Designed a prompt engineering system bridging user intent to Gemini's output format for component code generation
- Built live preview pipeline so users see generated app results immediately; supports iterative follow-up prompts

AI Voice Assistant

TypeScript · Web Speech API · DOM APIs

- Implemented full speech recognition pipeline, intent parsing module, and response synthesis using Web Speech API
- Structured codebase with strict TypeScript types — fully type-safe command registry with modular intent handlers

Java Banking System — Console Application

Java · OOP · File I/O

- Implemented deposit, withdrawal, transfer, and balance enquiry with full OOP design and transaction logging
- Applied SOLID principles, exception handling, and persistent file-based storage

DSA & PROBLEM SOLVING

- Solved 144 problems on LeetCode (123 Easy · 20 Medium · 1 Hard) — Contest Rating 1458, 97-day max streak, 100 Days Badge 2026
- Strong foundation in Arrays, Linked Lists, Trees, Graphs, Dynamic Programming, and Sliding Window
- Active on HackerRank — earned certifications in Java and Problem Solving

CERTIFICATIONS

- Java Programming — Udemy (Comprehensive Java Masterclass)
- Google AI Studio — Prompt Engineering & Gemini API Integration
- HackerRank — Java (Gold Badge), Problem Solving (Silver Badge)
